Montgomery County Community College (MCCC), founded in 1964, is now celebrating their 50th anniversary. MCCC is located 25 miles northwest of Center City Philadelphia with campuses in Blue Bell and Pottstown, serves approximately 21,000 credit and 10,000 non-credit students annually. Recognized for its leadership in sustainability, innovation, and student success, MCCC is one of the most technologically savvy community colleges in the country with a new virtual campus, three additional locations, and 29 instructional sites throughout the County. The College’s curriculum includes more than 100 associate degree/certificate programs and specialized workforce development courses. The College has earned national recognition by being named as one of the nation’s “Achieving the Dream” Leader Colleges and is the 2014 Leah Meyer Austin Award recipient. The Leah Meyer Austin Award recognizes Achieving the Dream institutions that demonstrates outstanding institutional achievement in creating policies, practices, and an institutional culture of equity and excellence that supports and nurtures student success. Dean of Health Sciences

The College’s “Strategic Plan to 2016: Beyond Access” sets the development and delivery of transfer and workforce relevant academic programs as a priority. At the heart of this plan is the continued enhancement of the College’s Health Sciences excellence. The College offers an integrated portfolio of credit and non-credit programs in Dental Hygiene, Medical Assisting, Medical Coding, Exercise Science and Wellness, Health and Fitness Professionals, Medical Laboratory Technician, Nursing, Phlebotomy, Radiography, and Surgical Technology. The College has excellence in graduate success on national license/registry examinations and its programs hold the highest level of specialized accreditation. Occupational Therapy Assistant, Physical Therapy Assistant, and Massage Therapy programs are under development at the College for 2016-2017 implementation. The top goal of the College’s Master Facilities Plan is the development of a sustainably-designed, state-of-the-industry Health Sciences Center that will position the College as the regional leader in health and wellness education. The new $36 million interdisciplinary and simulation-rich facility, set to open during the 2016-2017 academic year, will house the current and newly-planned health career, exercise science, and wellness programs.

Position: MCCC is currently seeking an entrepreneurial and mission-driven individual to lead its Health Sciences division. The Dean of Health Sciences provides visionary leadership for an integrated division that includes all Health Science related associate degrees, certificates, and workforce development programs. The Dean serves as an important liaison for the College to enhance and create essential partnerships and opportunities that secure alternative funding and support student success, transfer preparedness, job placement, and workplace readiness. The Dean contributes to the development of the College’s strong online course and program environment and also works to strengthen credit and non-credit program planning and assessment efforts. This position has college-wide responsibilities that requires travel between campuses and to off-site locations.

Qualifications: The new Dean will have experience in long-range planning, program development, and outcomes assessment and will possess a willingness to work toward the goals of the College’s strategic plan, Academic Affairs strategic plan, and quality improvement initiatives. The successful candidate will have a demonstrated commitment to program accreditation and excellence in teaching and learning in and out of the classroom. The ability to supervise and manage all levels of personnel and to work with representatives from external constituencies in the identification of general education and/or occupational programming will be essential. Successful candidates will demonstrate leadership ability and strong communication skills as well as passion for and commitment to working within a community college setting. The ideal candidate will hold, in good standing, or be eligible for, a current Pennsylvania license/certification/registry in his or her professional discipline, if required by the profession and state. A minimum of three years teaching experience in higher education as well as three years of administrative experience at an Academic Director/Coordinator/Assistant Dean (or equivalent) level are required. A master’s degree is required in a discipline reflective of current, new, or prospective division programming. A doctorate is preferred.

Application: Interested candidates should submit only a cover letter and resume to RPA Inc. at mc3deanhealth@rpainc.org. For a confidential discussion, call Amanda O’Donnell, Search Manager, or James Heffernan, Senior Consultant, at 800-992-9277. For guaranteed consideration, please submit application materials by October 8, 2015. Applications will be accepted until the position is filled. Montgomery County Community College is an EEO/AA/ADA Employer and requires compliance with the Immigration Reform and Control Act of 1986.
