

## OFFICE OF DISABILITY SERVICES

[disabilities@mc3.edu](mailto:disabilities@mc3.edu)

### **Attention Deficit Hyperactivity Disorder (all subtypes) Documentation Guidelines**

Submission of documentation is not the same as the request for services. The request for reasonable accommodations must be initiated by the student once the student is confirmed at the College. The student must schedule and participate in an Intake appointment with the Office of Disability Services so that support services and reasonable accommodations can be discussed in an interactive process. Documentation will be reviewed by Disability Services prior to the appointment. **The Office of Disability Services is responsible for and will make the final determinations regarding appropriate accommodations.**

- Documentation must be submitted by a psychologist, psychiatrist, or a physician *trained and experienced in the differential diagnosis of ADHD in adults* (including young adults).
- The professional completing the form is not a family member of the student or someone who has a personal or business relationship with the student.
- Documentation should include the names, titles, professional credentials, license number, addresses, and phone numbers of the evaluators as well as the date of the report.

Please provide a clear statement of the disability, including the DSM-V diagnosis and a summary of present symptoms.

1. Documentation for eligibility should address the current substantial functional impact(s) of the condition in the educational setting; (the age of effective documentation is dependent upon the disabling condition, the current status of the student and the student's request for accommodations);
2. A summary of assessment procedures and evaluation instruments used to make the diagnosis and a summary of evaluation results, including standardized or percentile scores;
3. Medical information relating to the student's needs should include the impact of medication on the student's ability to meet the demands of the postsecondary environment;
4. Suggestions for reasonable accommodations that might be appropriate at the postsecondary level are welcome. **Each recommendation should be supported by the diagnosis and clearly linked to the current impact of a functional limitation of the student's disability.**

Disability documentation is confidential and should be submitted only to the Office of Disability Services.

*The Office of Disability Services maintains disability files and diagnostic testing information for seven years after the student either graduates, transfers, or leaves the College. After that time, the confidential files are destroyed. If a student does not attend the College but has submitted documentation, the files will be destroyed after two years. Consequently, the student should maintain their own copy of the diagnostic information.*

## Attention Deficit Hyperactivity Disorder (all subtypes) Verification Form

### TO BE COMPLETED BY PSYCHIATRIST / PSYCHOLOGIST / OR OTHER QUALIFIED DIAGNOSTICIAN\*

*(\*as specified in College Guidelines, see previous page)*

The American with Disabilities Act (ADA; 1990; as amended, 2008) and Section 504 of the Rehabilitation Act of 1973 ensure the accessibility and availability of higher education for all qualified persons. The Office of Disability Services has the responsibility of implementing provisions of the ADA for persons with **attention deficit hyperactivity disorder (ADHD)**. A disability is defined by the ADA as "...a physical or mental impairment which substantially limits one or more major life activities. . ." These are significant, ongoing conditions of more than 6 mos. duration rather than temporary or situational difficulties.

Office of Disability Services assists students with disabilities by:

- 1) Establishing eligibility for accommodations
- 2) Identifying and overseeing the provision of reasonable accommodations.

Office of Disability Services does not perform evaluations for students with ADHD and the responsibility to pay for such evaluations is that of the student.
