

Montgomery County Community College
 EMP 110
 Incident Management
 3-3-0

COURSE DESCRIPTION:

This course is designed to provide the student with an overview of the 'Incident Command'-'Unified Command' Structure. Additionally, a look at incident management from various perspectives such as local fire departments, industrial settings, the Oklahoma City bombing, and other case studies will be examined. Students will work interactively to prepare for future roles and responsibilities as those charged with a management role in incident command, control or mitigation. Moreover, the student will learn from the experiences of others, sharpening their understanding and skills relative to the dimensions of emergency incident management.
