

Invest in Student Success, Earn Valuable Pennsylvania Tax Credits

Through Pennsylvania's Educational Improvement Tax Credit (EITC) program, businesses and corporations have the unique opportunity to help students succeed while receiving beneficial tax credits to help their bottom line. At Montgomery County Community College, donors have the option to contribute to the Challenger Learning Center at Montco Pottstown and/or the Dual Enrollment program.

Challenger Learning Center at Montco Pottstown

Challenger Learning Center at Montco Pottstown—the first in Pennsylvania—provides transformative, space-themed learning experiences that spark curiosity and prepare students for future success. Since it opened in August 2022, Challenger Learning Center has served nearly 16,000 students through more than 600 in-person, virtual, and international missions, providing hands-on experiences that build critical STEM skills, foster teamwork and problem-solving, and inspire the next generation of innovators, scientists, engineers, and leaders.

Dual Enrollment

Dual Enrollment opens the door to college while students are still in high school, allowing them to earn college credits, reduce the cost of a degree, and build confidence for future academic success. Donor support helps expand these opportunities, empowering more students to begin their college journey early, earn a degree at Montco and transfer to four-year institution.
